International E-conference of Differential Equations and Applications (IE-CDEA'2021)-Fez

The laboratory of analysis and applied mathematics (LAMA) organizes
on September 24/25, 2021
the 1st International E- Conference on Differential Equations and
Applications (IE-CDEA 2021)
Faculty of Sciences Dhar El Mhraz, Fez

The International E-Conference on Differentials Equations and Applications (ICDEA'2021) is an international forum aiming to discuss and present the latest research results and experiences in the area of nonlinear partial differential equations and their applications. The meeting is also an excellent opportunity for international exposure and interaction among scientists and mathematicians as well to promote contacts and collaborations between the participants and contribute to creating new open questions and problems in the field.

Topics

Nonlinear Analysis
Numerical Analysis and Modeling
Partial differential equations
Optimization and control theory
Dynamic systems
