4th International Doctoral Training School (IDTS26)

Applied Mathematics and Artificial Intelligence

The 4th International Doctoral School on Applied Mathematics and Artificial Intelligence (IDTS26) aims to train high-level doctoral students capable of developing, analyzing, and applying advanced mathematical methods and artificial intelligence techniques to address complex scientific, technological, and socio-economic challenges. The program promotes interdisciplinary research at the interface of mathematics, computer science, engineering, and data science.

Speakers:

Sophie Dabo-Niang

University of Lille
France

Idir Ouassou

Cadi Ayyad University
Marrakech, Morocco

Jamal Riffi

SMBA University
Fez, Morocco

Fidae Harchli

Abdelmalek Essaadi University
Tetouan, Morocco

Mounir Gouiouez

SMBA University
Fez, Morocco

April 13-18, 2026

Faculty of Sciences Dhar El Mahraz, FEZ

Chairwoman:

Hassania Hamzaoui

(hassania.hamzaoui@usmba.ac.ma)
